Features

Product Distribution	Reduces the time needed to install and deploy physical infrastructure devices by automatically detecting manageable devices on your network.
Product Distribution	Speed deployment by specifying remote network segments or an IP address range to discover APC devices.
Product Distribution	Simplify data center infrastructure management by using a centralized repository accessible from anywhere on the network through a powerful and easy-to-use console application.
Product Distribution	Prevent equipment failure from a full range of threatening environmental conditions.

Product Distribution	Centralized event handling enables root cause diagnosis and quick resolution of problems as they arise.
Product Distribution	Pinpoint the timing and sequence of events leading up to an incident with the event log.
Product Distribution	The CTEG48K AC generator comes with an event meter on the generator controller.
Product Distribution	The UPS stores the last 250 alarms and events in the time stamped event log for easy diagnosis of power events or UPS faults.
